ORAL-B POWER BRUSHHEAD RANGE

FLOSSACTION Featuring revolutionary MicroPulse™ bristles that penetrate deep between teeth for a flosslike clean.* <small>* Does not replace flossing</small> 	PRO WHITE Polishing cup in centre delivers superb polishing action. Gently removes surface stains to naturally whiten teeth. Outer bristles surround each tooth for a thorough clean. 	PRECISION CLEAN A gentler brushhead that delivers better tooth cupping for an improved brushing experience.* <small>* vs original Precision Clean™ brushhead.</small> 	SENSITIVE The extra soft bristles are gentle on teeth and gums and provide a soft mouth feel. 	TRIZONE Shorter stationary bristles for thorough surface cleaning and longer sweeping bristles for a deep between teeth clean. 	KID'S Flowered extra soft bristles for gentle cleaning and a smaller brushhead designed especially for children. 	DUAL CLEAN Both heads move for twice the cleaning action. Cleaning, freshening and gum care - all in 1 brush. 	PULSONIC Helps to remove more plaque than a regular manual toothbrush. Also helps remove surface stains. Only for use with Pulsonic. 	ORTHO Special bristle design for cleaning around braces. 	OXYJET REFILLS Mixes air and water then pressurises it to form millions of long-lasting micro-bubbles designed to attack plaque bacteria. Only for use with OxyJet.
